Survey HW-1: Survey Topics and Team Building

Instructions:

We will have a set of homework setup to help write your survey. In this homework, you are expected to read abstracts of the conference proceedings of PLDI, ICSE, FSE and CCS for the recent 2 years, based on which, you will select 3 topics or small areas of your interest. You will also talk to other students in class to build a team to write the survey. You will report your teammate and your topics of interest in class on Jan 16 (Monday). Based on your interest, I will assign a survey topic to your team later in the semester. This homework accounts for 1% of your final grades.
